Curriculum

The Department of Economics offers two undergraduate degrees (BBA and BA), a Master's of Arts degree (MA) and the doctorate (Ph.D.), and it also offers courses in the Fogelman College's MBA, EMBA and IMBA programs.

The undergraduate degrees are the Bachelor's in Business Administration through the College of Business and Economics (BBA) and the Bachelor's of Arts (BA) through the College of Arts and Sciences. The curriculum emphasizes the development of analytical skills and hands-on experience, equipping graduates for a wide range of employment or post-baccalaureate options.

Qualified students may work toward the MA degree with a major in Economics or the PhD degree in Business Administration with a concentration in Economics. The objective of the post-graduate programs is to prepare candidates for a successful academic or professional career in economics and business. Through an intensive, advanced level training in both economic theory and quantitative methods, students learn to conduct independent research and prepare for various responsibilities of a professional career
